

Behind the Staircase Michael Peterson: The True Story of the Owl Theory

Michael Peterson's wife, Kathleen, was found dead at the bottom of their staircase in 2001. Peterson claimed she fell, but prosecutors said he bludgeoned her to death. The case became a national obsession, and Peterson was eventually convicted of murder.

But did he do it? A new book, *Behind the Staircase*, investigates the case and presents new evidence that could exonerate Peterson. The book's author, Diane Fanning, is a former prosecutor who has spent years investigating the case. She argues that Peterson is innocent and that the owl theory is the most likely explanation for Kathleen's death.

The Owl Theory

The owl theory is a controversial theory that claims that Kathleen Peterson was killed by an owl. The theory is based on the fact that there were owl

feathers found near Kathleen's body, and that there were scratches on her head that could have been caused by an owl's talons.

Fanning argues that the owl theory is more likely than the prosecution's theory that Peterson bludgeoned Kathleen to death. She points out that there is no physical evidence to support the prosecution's theory, and that the owl theory is consistent with the evidence that was presented at trial.

The Trial

Peterson's trial was a media circus. The prosecution presented a strong case against him, and the jury convicted him of murder. However, there were many疑点 in the prosecution's case, and many people believe that Peterson is innocent.

Fanning's book raises serious questions about Peterson's conviction. She presents new evidence that could exonerate him, and she argues that the jury made a mistake in convicting him. *Behind the Staircase* is a must-read for anyone who is interested in the Michael Peterson case.

The Michael Peterson case is a complex and fascinating case. There is no easy answer to the question of whether or not he is guilty. However, Fanning's book presents a compelling case for Peterson's innocence. *Behind the Staircase* is a must-read for anyone who is interested in the case.
