### By [Author's Name]

Are you ready to take your portrait photography to the next level with corrective lighting, posing, and retouching? This comprehensive guide will show you how to create stunning, professional-quality portraits that capture your subject's personality and beauty.

Packed with full-color illustrations and examples, this book covers everything you need to know about corrective lighting, posing, and retouching, including:

- **Lighting:** Master the art of lighting your subjects for optimal results, including techniques for flattering different face shapes and skin tones.
- **Posing:** Learn how to pose your subjects to create flattering, natural-looking portraits that highlight their best features.

- **Retouching:** Discover the secrets of professional retouching, including techniques for removing blemishes, smoothing skin, and enhancing eyes.

Whether you're a beginner or an experienced photographer, this book will help you take your portrait photography to new heights.

## **What's Inside?**

This book is divided into three parts:
