Our House Is On Fire is a powerful and moving book that tells the story of the climate crisis and the urgent need to act. Written by Greta Thunberg, one of the world's leading climate activists, the book is a call to action for everyone who cares about the future of our planet.

The book begins with Thunberg's own story. She tells of how she first learned about the climate crisis and how it made her feel. She also talks about her decision to start skipping school on Fridays to protest outside the Swedish Parliament.

Thunberg's story is inspiring and heartbreaking. It is the story of a young girl who is determined to make a difference in the world. She is not afraid to speak up for what she believes in, even when it means standing up to powerful adults.

Thunberg's story is also a reminder of the urgency of the climate crisis. The climate is changing faster than ever before, and we are already seeing the devastating effects of climate change around the world.

In Our House Is On Fire, Thunberg lays out the facts about the climate crisis. She explains the science behind climate change and the impacts that it is having on our planet. She also talks about the solutions to the climate crisis, and what we can do to make a difference.

Our House Is On Fire is a must-read for anyone who cares about the future of our planet. It is a powerful and moving book that will leave you inspired and ready to take action.

Here are some of the things that people are saying about Our House Is On Fire:
