EU State Aid Control has a significant impact on infrastructure investment, as it governs the provision of financial support to companies or projects by public authorities. Understanding and complying with these rules is crucial for ensuring that infrastructure projects receive the necessary funding while also safeguarding fair competition in the European Union.

This book offers a comprehensive examination of the relevant legal frameworks, including the Treaty on the Functioning of the European Union (TFEU), the EU Merger Regulation, and the various State Aid Guidelines. It also provides detailed analysis of key case studies and practical advice on how to structure and implement infrastructure projects in compliance with EU State Aid rules.

Key Features

- In-depth analysis of the legal frameworks governing EU State Aid Control, including the TFEU, EU Merger Regulation, and State Aid Guidelines
- Detailed case studies illustrating the application of EU State Aid rules to infrastructure projects

- Practical advice on how to structure and implement infrastructure projects in compliance with EU State Aid rules
- Analysis of the latest developments in EU State Aid policy, including the European Green Deal and the COVID-19 pandemic
- Written by a team of leading experts in EU competition law and state aid

Target Audience

This book is an essential resource for:

- In-house counsel and private practitioners specializing in EU competition law and state aid
- Government officials and regulators responsible for infrastructure planning and financing
- Investors and project developers involved in infrastructure projects
- Academics and researchers specializing in EU competition law and state aid
